

Commission

Goals

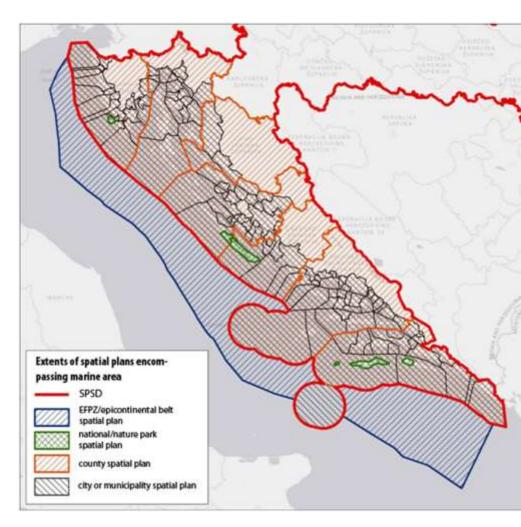

Physical planning system (PPS)

provides the conditions for use / governance / protection / management of the space of the Republic of Croatia

Spatial plans cover both terrestrial and maritime areas.

Existing spatial plans have **already incorporated most of the themes and requirements of MSP** arising from the Directive 2014/89/EU (MSP), Directive 2008/56/EC (MSFD) and ICZM Protocol.

New generation spatial plans, which are planned to be developed in the next period, will comprise all the obligations transposed to the legal framework.

Vesna Marohnić Kuzmanović, Ministry of Construction and Physical Planning, Croatia

MARITIME AREAS - STATE SPATIAL PLAN 1989,

MAP: Space Purpose and Use Planning
