

- Status of MSP implementation in Slovenia

Slovenia is now in phase of preparation of the open call for external expert for technical support for the implementation of MSP. The process is lead by Ministry of the environment and Spatial planning.

- Links of MSP with land-use planning and/or ICZM

The links between MSP with land-use planning and/or ICZM are very important for Slovenia. In the frame of Slovenian MSP a close coordination will be established with relevant/responsible actors for planning of the shoreline for a better mutual coordination.

- MSP needs of the country Slovenia

The needs of Slovenia are reflecting in the need of:

- coordination between coastal part and offshore because of its activity and interests density and*
- Cross-border cooperation for planning and management of the Northern Adriatic.*
