

## Status of MSP implementation in Spain

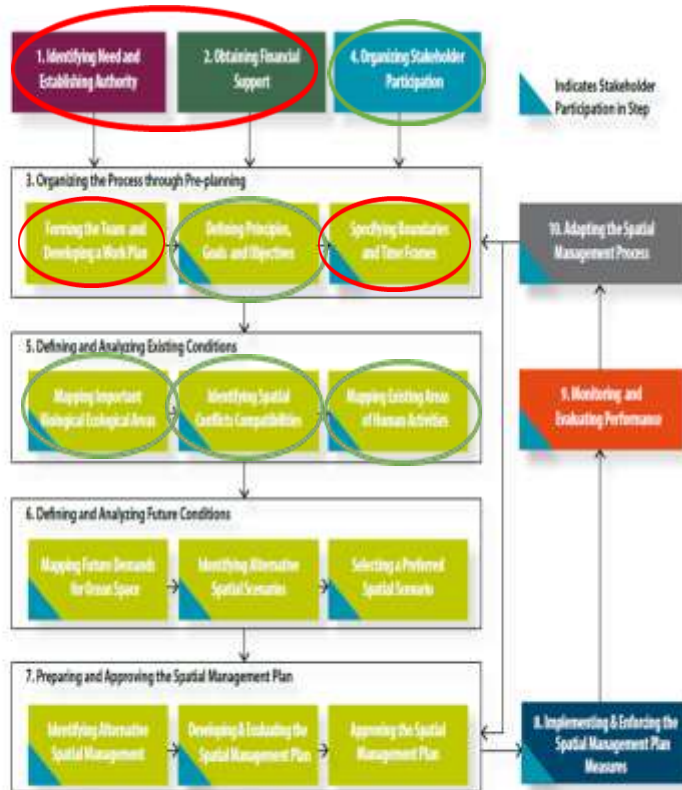

Fig. 1. A Step-by-Step Approach to Marine Spatial Planning

### LEGAL STATUS

- **DIRECTIVE 2014/89/EU OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 23 July 2014 establishing a framework for maritime spatial planning**
- **Royal Decree 363/2017, of 8 de April, establishing a framework for maritime spatial planning.**

## Links of MSP with land-use planning

- ✓ River basin management plans
- ✓ Strategy for protection of the coast against climate change
- ✓ Some initiatives at the local-regional scale

### MSP needs of Spain:

The confluence of activities in the maritime space requires effective management that:

- ✓ Supports the GES;
- ✓ Mitigate the potential present and future spatial conflicts;
- ✓ Consider the emerging sectors;
- ✓ Pursue synergistic relationships between the different activities at the sea.
